

K-9 INERT EXPLOSIVES TRAINING KIT

X-TEST Product No. SECUR007

ABOUT THIS KIT

This kit contains six different non-hazardous samples of the military and commercial explosive materials most commonly used worldwide. This kit was scientifically developed to provide the scent of genuine explosive materials in order to allow canine training of specific explosive materials. Expanded configuration is based on EU standards for canine explosive detection training. This kit was tested and authorized by EU standards.

This kit was designed and tested according to EU standards.

TARGET AUDIENCE

This kit is designed for field training, testing and performance auditing of Canine Explosive Detection units. The kit allows canine handlers to independently prepare and deliver training to their dogs and for canine supervisors to perform auditing programs.
